

The 11th IEEE Non-Volatile Memory Systems and Applications Symposium

NVMSA 2022

CALL FOR PAPERS

August 23-25, 2022, Hybrid Conference
(Taipei, Taiwan and Virtual Platform)

Organizing Committee

General Chair

Jen-Wei Hsieh, NTUST, Taiwan

TPC Co-Chairs

Ing-Chao Lin, NCKU, Taiwan

Takatsugu Ono, Kyushu University,
Japan

Local Chair

Yi-Yu Liu, NTUST, Taiwan

Finance Chair

Chien-Chung Ho, NCKU, Taiwan

Registration Chair

Shih-Fan Chou, NTUST, Taiwan

Publicity Co-Chairs

Yi-Jung Chen, NCNU, Taiwan

Liang Shi, ECNU, China

Jalil Boukhobza, ENSTA Bretagne,
France

Publication Chair

Yu-Pei Liang, CCU, Taiwan

Web Chair

Tseng-Yi Chen, NCU, Taiwan

Steering Committee

Steering Committee Chair

Yiran Chen, Duke University, US

Steering Committee Members

Chun (Jason) Xue, CityU, Hong Kong

Edwin Sha, ECNU, China

Hiroshi Nakamura, UTokyo, Japan

Jiwu Shu, Tsinghua University, China

Lionel Torres, UM2, France

Nikil Dutt, UC Irvine, US

Tei-Wei Kuo, NTU, Taiwan

Toshio Endo, Tokyo Tech, Japan

Sam H. Noh, UNIST, Korea

Sungjoo Yoo, SNU, Korea

Youjip Won, KAIST, Korea

Yuan-Hao Chang, Academia Sinica,
Taiwan

Zili Shao, CUHK, Hong Kong

NVMSA is a premier conference in the area of non-volatile memory (NVM) systems and emerging memory technologies. It provides a fantastic opportunity for global non-volatile memory researchers from different communities to discuss and exchange knowledge, ideas and insights, and to facilitate the establishment of potential collaborations that can speed up the progress in the design and application of NVMs. An expanded technical program will be offered in NVMSA 2022 for the audience from academia and industry.

Scope of Conference

Device/Circuit Design of NVM Systems: NVM Architecture and Systems:

- Emerging NVM Circuit Design
- NVM Device Design
- Error Correction for NVMs
- Non-volatile Logic Circuit
- Low Power NVM Circuit
- Non-volatile Registers
- Non-volatile Memory Architectures
- Non-volatile Cache Design
- NVM Neuromorphic Architectures
- NVDIMM

NVM Storage:

- Operating System Support for NVM
- Compiler Optimization for NVM
- NVM-based Storage Software
- NVM-based Databases
- NVM Controller Design

NVM Applications:

- In-memory Computing
- NVM for Big Data Analytics
- NVM in Mobile Healthcare Applications
- NVM in Wearable Applications
- NVM in the Internet of Things

Paper Submission

Both research and industry track papers are solicited. All papers must be submitted electronically in PDF format. The submitted manuscripts must describe original work not previously published and not concurrently submitted elsewhere. Submissions must be no more than 6 pages in the IEEE conference proceedings format (two-column, single-space). Each paper is peer-reviewed by the program committee members, and the authors are notified of either “accepted for a long presentation”, “accepted for a short presentation”, or “reject.” Note that authors of a short presentation do not need to shorten the paper itself. Accepted papers will be included in the IEEE Xplore and will be EI indexed. For detailed instructions for submission, please refer to the “**Submissions**” section at:

<https://nvmsa2022.github.io/>

Important Dates

Paper Submission: **April 15, 2022 (AoE)**

Acceptance Notification: **May 31, 2022 (AoE)**

Camera-ready Deadline: **June 30, 2022 (AoE)**

Special Notice Regarding the COVID-19 Pandemic

Since the safety of the conference participants is of paramount importance, the conference organizers will closely monitor the COVID-19 coronavirus pandemic. In addition, authors can choose to present their work either in person or through online video conferencing. The video conferencing system will soon be announced on the conference website.
